Datasheet

HANGCHA 8m Electric Scissor Lift 81XE II

Brand: Hangcha

Short Description

HANGCHA 8m Electric Scissor Lift 81XE II is a compact and efficient aerial work platform designed for indoor applications. Powered by a **lithium battery**, it delivers quiet, emission-free operation with low maintenance requirements. With a **working height of 8.1 meters** and a spacious platform with extension, it provides safe and stable access for maintenance, installation, and warehouse tasks in confined spaces.

Full Description

HANGCHA Group, founded in 1956, is one of the world's leading manufacturers of material handling equipment and aerial work platforms, known for its advanced engineering, reliability, and continuous innovation. The company provides a wide range of electric solutions designed to meet modern industrial and logistics requirements.

The **HANGCHA 81XE II** electric scissor lift is an efficient and compact aerial work platform designed to provide safe and stable vertical access for various working environments. Powered by a lithium battery system, it offers quiet, emission-free operation, making it ideal for indoor use where low noise and clean energy are essential.

This scissor lift is widely used in warehouses, maintenance facilities, shopping malls, factories, and construction sites for tasks such as installation, inspection, repair, and material handling at height. Its compact design allows easy maneuverability in tight spaces, while the extended platform provides additional working reach and flexibility for operators. With its reliable performance and user-friendly controls, it is a practical solution for daily access and lifting operations.

Technical Specifications

HANGCHA 8m Electric Scissor Lift 81XE II

Specification	Value
manufacturer	HANGCHA
model	81XE II
equipment_type	Electric Scissor Lift
working_height	8.1 m
platform_height	6.1 m
platform_size	2.27 x 1.14 m
platform_extension_size	0.9 m
rated_load	340 kg
load_on_extension	113 kg
working_area	Inside
tires_type	Non-marking
battery_type	Lithium
machine_weight	1700 kg
overall_length	2.47 m
overall_width	0.81 m
overall_height	2.14 m
maximum_slope	2° or 3.5%
lowered_time	59 ± 4 s
control_type	Joystick
