Full Description

HANGCHA 120 XEN Electric Scissor Lift is a reliable access solution designed for safe and efficient work at height in warehouses, facilities, construction sites, maintenance zones, and indoor projects. With a **12.0 m working height** and **10.0 m platform height**, this model is suitable for tasks such as installation, inspection, fit-out works, electrical jobs, and overhead maintenance.

This scissor lift is equipped with a **24V 200Ah lithium battery** and a **built-in charger**, helping provide clean electric operation with practical charging convenience. Its **320 kg platform capacity** allows operators to lift personnel, tools, and essential materials for elevated work applications.

The **HANGCHA 120 XEN** also features a compact structure with **2.48 m overall length** and **1.15 m overall width**, making it easier to maneuver in restricted working areas. It comes with **non-marking solid tires**, making it especially suitable for indoor environments where floor protection and clean operation are important.

For improved usability and site safety, the unit includes practical features such as an **overload alarm**, **220V socket**, **high pressure gas pipe**, **footbrake**, and **working lights**. Additional standard specifications include **hour meter**, **alarm light**, **control box**, and other essential components that support daily operational efficiency.

Overall, the **HANGCHA 120 XEN Electric Scissor Lift** is a dependable choice for businesses looking for a modern elevated working platform that combines height performance, compact dimensions, electric efficiency, and practical jobsite features.
