Full Description

HANGCHA is a well-established equipment manufacturer founded in **1956**, with a strong international reputation in material handling and access equipment. The brand is known for developing practical, reliable machines that support industrial, warehouse, logistics, and maintenance applications across a wide range of working environments.

The **electric articulating boom lift** is designed to provide flexible elevated access where maneuverability, clean operation, and efficient working performance are important. Its articulating boom structure helps operators reach up and over obstacles, making it a suitable solution for maintenance work, installation tasks, facility operations, and elevated access in confined or hard-to-reach areas.

This HANGCHA boom lift combines modern electric operation with user-focused safety and control features, making it a practical choice for companies looking for dependable access equipment for professional indoor and outdoor applications.

Technical Specifications

HANGCHA 17m Working Height Electric Articulating Boom Lift

| Specification | Value |
|---------------------|----------------------------|
| Model | GTHZ170 |
| Working Height | 16.75 m |
| Platform Height | 14.75 m |
| Battery | Lithium Battery 80V-125 Ah |
| Charger | Built in charger |
| Horizontal Height | 9.30 m |
| Length (Storage) | 5.40 m |
| Height (Storage) | 2.11 m |
| Capacity | 200 kg |
| Tire Type | Non marking Solid Tires |
| Socket | 220V Socket |
| Contact Alarm Cable | Included |
| Leakage Protection | Included |
| Buzzer | Included |
| Working Lighting | 2 PCS |
