## Full Description

**HANGCHA** is an established equipment manufacturer founded in **1956**, with a strong reputation for producing reliable industrial equipment for material handling and access applications. Over the years, the company has expanded its presence globally by focusing on practical engineering, product quality, and dependable performance for professional users.

The **diesel articulating boom lift** is designed to provide flexible elevated access in challenging work environments where reach, maneuverability, and outdoor performance are important. Its articulating boom structure helps operators work around obstacles and access difficult areas more efficiently, making it suitable for construction, maintenance, installation, and industrial support tasks.

This HANGCHA model is a practical solution for companies looking for durable and efficient access equipment for daily jobsite use. It combines strong working capability, operator-focused control, and essential safety features to support productivity across a wide range of professional outdoor applications.

## Technical Specifications

### HANGCHA HZ220H 22 m Working Height Diesel Articulating Boom Lift

Specification	Value
Model	HZ220H
Working Height	22 m
Platform Height	20 m
Engine	Yanmar
Crossing Height	10.2 m
Length (Stowed)	10.65 m
Width (Stowed)	2.84 m
Capacity	230 kg
Tire Type	Solid Black Tires
Socket	220V Socket
Contact Alarm Cable	Included
Leakage Protection	Included
Buzzer	Included
Working Lighting	2 PCS
