Full Description

Manufactured by Genie, a recognized brand in aerial work platforms. The Genie AWP-25S is an electric scissor lift designed for indoor and outdoor applications where a compact and versatile elevating work platform is required.

This model is suitable for tasks such as maintenance, installation, painting, and general construction work at height. Its electric operation makes it appropriate for use in environments where emissions and noise are a concern.

Key operational characteristics include a compact stowed size for easy transport and storage, outriggers for stability, and multiple platform configurations to suit different access needs. The platform is designed for operator safety and efficiency.
