Full Description

Manufactured by ZHEJIANG DINGLI MACHINERY CO., LTD., the Dingli JCPT1912DCL is a self-propelled scissor lift designed for reliable access in demanding work environments. This electric model combines robust construction with practical features for efficient operation.

The JCPT1912DCL is ideal for a wide range of applications, including indoor and outdoor maintenance, construction, installation, and facility management tasks. Its self-propelled design allows for easy maneuverability on job sites, while the one-way platform extension deck provides additional reach when needed.

Key operational features include proportional joystick controls for precise movement, self-locking gates for safety, and a platform load sense system. The lift is equipped with solid rubber tyres, two-wheel drive, and two-wheel steering, ensuring stable performance on various surfaces. Safety is enhanced with a tilt alarm, motion alarm, emergency stop button, and an onboard fault diagnostic system. The foldable guard rails facilitate transport and storage, and the flashing LED beacon increases visibility on site.
