Full Description

Manufactured by Terex Corporation, the Genie AWP-36S is a compact aerial work platform designed for efficient access in confined spaces. This model is available with AC or DC power and offers a tilt-back frame option for easier transport.

Typical applications include maintenance, electrical work, and installation tasks in commercial and industrial facilities. The platform can be configured with sliding mid-rail, gated standard, or gated narrow platforms to suit different work environments.

Key operational features include a descent light and alarm package, tool tray, auxiliary platform lowering, crane attachment point, and forklift pockets for handling. The unit is designed to roll through standard doorways and load quickly into pickup trucks, enhancing mobility on job sites.
