XCMG GSQS400-5 Loader Crane

The **XCMG GSQS400-5** is a high-performance loader crane engineered for demanding lifting and loading tasks. Manufactured by **XCMG**, a globally recognized leader in construction machinery, this crane combines advanced hydraulic technology with robust structural design to deliver exceptional reliability and productivity.

Typical Applications

The GSQS400-5 is well-suited for a variety of lifting and material handling applications, including:

- Loading and unloading heavy cargo in logistics and transportation
- Construction site material handling
- Infrastructure and utility maintenance
- Industrial plant operations

Key Operational Features

The GSQS400-5 incorporates several advanced features that enhance operational efficiency and user value:

- Comprehensive optimization of the hydraulic system for higher work efficiency and lower energy consumption
- Single cylinder synchronous telescoping mechanism upgraded for higher reliability
- Automatic hook-in technology saves operation time and inventory space
- After-sales service with engineers available to service machinery overseas
