SDLG L956H Wheel Loader

The **SDLG L956H** is a heavy-duty wheel loader engineered for demanding material handling tasks. Manufactured by **SDLG**, this model combines reliable performance with practical design, making it suitable for a variety of construction and industrial environments.

Typical Applications

This wheel loader is well-suited for common loading and material movement operations, including:

- Loading aggregates, sand, and gravel
- Stockpiling and rehandling bulk materials
- Site preparation and general earthmoving support

Key Operational Features

The L956H is designed with operator efficiency and durability in mind. Its planetary power shift transmission provides smooth gear changes, while the robust structure supports consistent performance in tough conditions.

- Planetary power shift transmission for reliable operation
- Diesel engine from Weichai for dependable power delivery
- Designed for heavy-duty loading cycles
